Testing Completed: 09/05/2012

Application Test Details

Capabilities Tested: Networking

Language(s): EnglishNorthAmerica

Result: Failed

Failure Summary: 4.5, 4.7

Exception(s) Applied: None

Action: Please address the comprehensive list of failures below, review the [Windows Phone Application Certification requirements](http://go.microsoft.com/fwlink/?LinkID=183220) (<http://go.microsoft.com/fwlink/?LinkID=183220>) and resubmit your updated application for certification testing. For further assistance, please submit a support ticket using the Support e-Form in the [Dev Center Dashboard](http://go.microsoft.com/?linkid=9762121) (<http://go.microsoft.com/?linkid=9762121>).

Windows Phones Tested: LG Optimus 7, Nokia Lumia 800

Technical

4.5 Windows Phone Marketplace Iconography

4.5

Requirements

For each application, you must submit one icon to represent your application in the Windows Phone Marketplace catalog. This icon must match closely the icon provided in the XAP package. Users see this icon when browsing the application catalog on the phone before making a purchase.

Caution:

Do not use transparent PNG image files for the following phone application icons.

-A small mobile app tile icon (required), used in the phone Windows Phone Marketplace, 99 x 99

Expected Result

Test Process Required:

1. Locate the iconography files submitted with the application.
2. Verify that the icons are representative of the application, and match the icons that are present on the device after the XAP package is installed.
3. Verify that all applicable image files are included in the submission, are the right dimensions and are in non-transparent PNG format.

pixels in size.

-A large PC app tile icon (required), used in the phone Windows Phone Marketplace, 300 x 300 pixels in size.

-A large mobile app tile icon (optional), used in the phone Windows Phone Marketplace, 173 x 173 pixels in size.

-Background art (optional), used in the Background panorama, 1000 x 800 pixels in size.

Comments: The Marketplace tile image is a solid black color.

Result: Fail

4.7 Application Tile Image

4.7

Requirements

The large and small mobile app tile images must be representative of the application.

Expected Result

Test Process Required:

1. View the Application list
2. Verify that the small mobile app tile image is unique to the application, an end-user can associate the icons to the application.
3. From the Application list, tap and hold the small mobile app tile of the application and select 'pin to start'
4. Verify that the large mobile tile image on the Start screen is representative of the application.

Comments: The large mobile tile image is the generic sunburst icon.

Result: Fail
